Rationale (linked to previous knowledge, LL intent statement, CARE values)

This text has been chosen as it is written by a significant British author. Eva Ibbotson's eccentric witches, endangered monsters and friendly ghosts are one of the great joys of children's fiction. Funny, gripping and engaging this book is perfect to instil a love of reading for disengaged readers.

CARE - Respecting difference - Showing kindness towards others and especially those who appear to be 'different' and 'strange' is a quality shared by many of the main characters. The rescuers chose to rescue Ben who displays all our care values over Raymond who is selfish and spoilt.

Enthusiasm/Perseverance - Having to wait 9 years until the Gump reopens to rescue the lost prince.

LL intent statement - '*Inspire curious minds*' through this magical, adventure story. 'Promote an understanding and appreciation for the diversity of life' represented in the varied and eccentric characters and their characteristics in this story.
